Crystalotherapy
the salt way to feel good
salt caves

Close your eyes

Dream of an ideal environment of relaxation. A valuable cave, which offers unique experiences, based on Salt-therapy!

Welcome to the Crystalotherapy Salt Cave

The beneficial properties of Salt-therapy are known for many years in many countries. Staying at specially built areas – **salt caves** – is the most popular method of Salt-therapy.

Crystalotherapy is the first **Naturally built Salt Cave**. Since the beginning of its appearance in many cities world-wide, it has made many friends of all ages.

Its secret is simple...the air inside the cave is enriched with 84 trace elements of salt (**e.g. calcium, magnesium, potassium, iron**). These are the elements that the human organism absorbs in a natural way through respiration. The result? **Relaxation, health strengthening, well-being & rejuvenation**. Body & mind come to a perfect balance.

You feel better than ever!

Let yourself enjoy the journey

Crystalotherapy caves are made with tons of Polish mineral salt rocks & Dead sea salt.

45 minutes in the salt cave equal 4 days at the sea aura.

One visit is enough to make you feel reborn! The process is simple. **Keep your clothes on**. Walk on the salt, listen to the gargling water running in the **waterfall**, watch the **natural salt stalactite formations**. Lay down on the **zero gravity chaise longue**. Your senses relax. Lights & music are slowly turned down. The healthy cool air (**18° - 23°C**) will offer you Wellness & Health. Your senses taste the miracle of **Salt-therapy, Light-therapy, Music-therapy. Power to body & mind!**
